

### **Estimated Expenses for the Nursing Program\***

Costs will vary according to your personal situation. Our electronic resources include all textbooks for the program and other required computer-based products, including case studies, electronic medical records, and a suite of simulation resources and standardized testing.

Variable expenses depend on what types of computer devices you already own, and whether you plan to purchase new or used uniforms or have already worked in healthcare and have some of the needed supplies. If you have health care coverage, the expense of a physical exam and immunizations will be different than for a student who must pay out of pocket for those services.

#### ***Fixed Expenses***

- Drug Screen & Background Check \$130 plus the cost of Medical Document Manager
- Tuition \$160/credit (67 credits) \$10,720  
(includes pre-requisite and co-requisite and nursing courses)
- Skills Kits and supplies \$150
- Uniforms (new if preferred) Top-\$25-\$32, Pants-\$14-\$17, lab jacket-\$25-\$30

#### **Books and Standardized Testing Materials**

**\$2,602**

#### ***Variable Expenses***
